COLORADO'S

Annual Highway Report[✓], 1964,

FOR 1964

The Colorado Department of Highways offers grateful acknowledgment to the State Auditor, the State Treasurer, the Department of Revenue, and the many other State, County, and City Departments whose cooperation and assistance have made this report possible.

(Including reports of Receipts and Disbursements by the Colorado Department of Highways, *Dept. of,*
the counties and cities of the state pursuant to Chapter 120, Colorado Revised Statutes, 1963)

FOREWORD

Colorado law requires the Department of Highways to compile and issue this Annual Report. The document provides detailed information concerning state highway mileage, construction projects completed and maintenance operations. Also, information is included on the receipts and disbursements for highway purposes by the State and its several counties, cities and incorporated places and has been issued annually since 1954.

The law requires that the Report be sent to the Governor, to the members of the legislature and the elected officials of the counties, cities and towns. The Report is also made available to press and radio services and, so far as the published number will permit, to any interested citizen.

The method of presentation in this Report has been adopted to produce an understandable documentation of highway facts. The appendix shows detailed data for the use of highway administrators and interested highway-user groups.

The Department of Highways, which is responsible for making this factual information available to the citizens of the State, hopes that the Report will fulfill not only the statutory requirements, but will also serve to increase general understanding in the complex field of highway administration.

There are many other reports produced by the Department of Highways which are of interest to persons having a special interest in the highway development program. The Department welcomes inquiries relating to available publications.

THE DEPARTMENT OF HIGHWAYS AND ITS ORGANIZATION

The Department of Highways is a part of the executive branch of the State government, headed by the Governor. It has its own policy-making body which is the State Highway Commission. This Commission acts as a board of directors with full policy-making power. One of the major functions of the Commission is the preparation each year of a budget to guide the work of the Department through the ensuing fiscal period.

In addition to the important function of budgeting, the Commission approves all administrative policies and engineering standards used by the Department and reviews, on a quarterly basis, the construction progress, the fiscal position, and all property transfers and sales. The Commission

decides which highways shall be a part of the State Highway System and determines which highways shall be recommended for freeway status.

The Chief Engineer, as the Department's chief administrative officer, administers the affairs of the Department under the policies established by the Commission. The Chief Engineer is responsible for the direction of the work of the employees who man the complex engineering and administrative groups in the Department of Highways in accordance with the prevailing law.

The members of the State Highway Commission, the expiration date of their terms, the districts they represent, and the counties comprising the districts are listed below:

Expiration Date of Term	Name	Address	District	Counties
Feb. 1, 1968	Charles D. Unfug, Jr.	290 So. Broadway, Denver, Colorado.....	1	The City and County of Denver
Feb. 1, 1968	James F. Ellis.....	P. O. Box 99, Greeley, Colorado.....	2	Adams, Arapahoe, Boulder, Jefferson, Larimer, Weld
Feb. 1, 1967	Steve Christensen....	422 Turner Street, Brush, Colorado.....	3	Cheyenne, Kit Carson, Lincoln, Logan, Morgan, Phillips, Sedgwick, Washington, Yuma
Feb. 1, 1967	Carlyle N. Vickers....	Lamar, Colorado.....	4	Baca, Bent, Crowley, Kiowa, Las Animas, Otero, Prowers
Feb. 1, 1966	Robert W. Hendee...	26 Elm Ave., Broadmoor, Colorado Springs, Colorado.....	5	Chaffee, Custer, Douglas, Elbert, El Paso, Fremont, Huerfano, Lake, Park, Pueblo, Teller
Feb. 1, 1966	Claude A. Luekens...	Steamboat Springs, Colorado.....	6	Clear Creek, Gilpin, Grand, Jackson, Moffat, Rio Blanco, Routt
Feb. 1, 1969	Stanley L. Dodson....	Glenwood Springs, Colorado.....	7	Delta, Eagle, Garfield, Gunnison, Mesa, Montrose, Ouray, Pitkin, Summit
Feb. 1, 1969	Pete E. Middlemist...	Antonito, Colorado.....	8	Alamosa, Archuleta, Conejos, Costilla, Dolores, Hinsdale, La Plata, Mineral, Montezuma, Rio Grande, Saguache, San Juan, San Miguel

THE STATE HIGHWAY SYSTEM

The Federal Aid Highway Systems and the Colorado State Highway System are closely tied together by the laws of the State. Chapter 120, Colorado Revised Statutes, 1963, describes the State Highway System in the following words: "The State Highway System shall consist of the Federal Aid Primary roads, the Federal Aid Secondary roads and the Interstate System, including extensions thereof within urban

areas, plus an amount not to exceed five percent of the mileage of such systems which may be declared to be State Highways by the State Highway Commission while not being any part of any Federal System." The mileage of highways which exists on the various components of the State Highway System at the end of 1964, classed according to their surface type and number of lanes, is shown in the following table:

MILEAGE TABLE FOR STATE HIGHWAY SYSTEM BY TYPE OF SURFACE AND NUMBER OF LANES

SYSTEM	Projected	Bladed	Graded and Drained	Gravel		Asphaltic			Port. Cement Concrete			TOTALS
				2 Lane	4 Lane	2 Lane	4 Lane	6 Lane	2 Lane	4 Lane	6 Lane	
Federal Aid Interstate	322	242	128	4	27	212	12	947
Federal Aid Primary	31	9	3192	273	12	47	37	3601
Federal Aid Secondary	37	4	43	438	1	3629	22	19	4193
State (No Federal Status)	17	1	18	73	2	3	114
Totals	407	4	44	465	1	7136	425	16	96	249	12	8855

Many inquiries are received which indicate that there is a general belief that the US route markers along a highway are an indication of its Federal Aid status. Actually nothing could be further from the truth. The US shield, with its number, is placed on a highway by the State only after approval by the American Association of State Highway Officials. This is a technical association of state highway officials which studies any request for a US numbered route and determines whether the proposed route is of a type which would entitle it to the numbered status. The real purpose of the route numbering system is to identify highways which, by reason of their general excellence, are the best routes of travel between distant points. They are a major aid to trans-state and trans-continental traffic.

From the above table, it is noted that the Federal Aid System is made up of three distinct types of routes. The Interstate routes have been identified in the 1956 Federal Aid Act as "A National System of Inter-

state and Defense Highways." The Federal Aid Primary routes cover a major portion of the other important trunk highways in the State. Federal Aid Secondary routes are feeder roads covering farm to market, mine to market and other similar community type service roads.

The map on Page 11 of this report shows all those roads which are State Highways. The color legend overprinted on the road bands indicates those sections of highway on which construction contracts were completed during calendar year 1964. Immediately ahead of the map is a tabulation which gives the detailed information regarding these completed contracts.

The Interstate System includes 41,000 miles of the most important highways in the nation. The engineering standards for it have been established and it is to be built in a manner which will make it capable of handling the traffic volumes that are estimated to exist in the year 1975 or a subsequent design year. The standards are uniform for the entire

United States and have been accepted officially by all of the states and by the Secretary of Commerce on behalf of the Federal Government.

The funds appropriated to one of the Federal Aid Systems can be transferred to another Federal Aid System to only a limited extent. Generally speaking, in Colorado, the cost of constructing the Federal Aid Interstate System will be borne 90% from Federal appropriation and 10% from State source revenues. The Federal share approximates 55% and the State share 45% on the other Federal Aid Systems.

The Federal Aid Highway Act of 1960 repealed the limitation with respect to the exclusion of the additional 1,000 miles authorized for the Interstate System under the 1956 Act. The cost estimates used as the basis for the apportionment of Interstate funds includes the financing of the 1,000 mile addition, beginning with the fiscal year 1963.

Under no conditions can Federal Aid funds be used for anything except the construction of highways. The maintenance of Federal Aid highways is excluded from participation in Federal grants in aid. After construction, the cost of maintenance of the highway is borne 100% by the State.

Because the Federal Aid Secondary System was devised by the Congress to bring farm, mine and other natural resource products to the main Federal Aid System or to marketing and distribution centers, it is required that the County Commissioners of a county in which a proposed Federal Aid Secondary road lies, must concur with the State regarding its necessity before it may be submitted to the Federal Government for approval. The Colorado law is unique in requiring that the Boards of County Commissioners must concur with the State Highway Commission before a Federal Aid Secondary highway can be abandoned.

THE DEPARTMENT'S FINANCIAL CONDITION

The people of Colorado pay large sums of money in taxes and fees for their use of Colorado's system of highways. It is therefore the obligation of the Department of Highways to use sound management and accounting practices. This dictates that the monies collected should be expended in adherence to the best of budgetary procedures.

The records of the Department of Highways are kept on business machines in conformity with modern practice. Fiscal statements are prepared each month so that the management of the Department has always before it a current statement of its financial condition.

In addition to the fiscal statement, cost records are maintained for all of the different activities of the Department.

At the end of the calendar year and each fiscal year, a consolidated financial statement is prepared which can then be used to compare the current position with any previous period. On the facing page will be found the financial statement for the calendar year ending December 31, 1964. Attention is directed to the item of an Equipment Depreciation Reserve which is shown in the disbursement section as a credit. It is a Department practice to charge each operating division for the use of each piece of equipment which is assigned to it. The charge per day is based on a normal depreciation charge for the item of equipment. The operating budget of the division is charged each month for all pieces of

equipment which are being used by that unit of the Department of Highways. The amounts collected from these charges are put in an Equipment Depreciation Reserve Fund which is used to replace worn-out equipment and to purchase any necessary new equipment. For the stated reason, the fiscal budget of the Department does not include an appropriation for the purchase of equipment, but the cost records always indicate the amounts which have been expended for that purpose. For this reason, the amount accumulated in the Reserve Fund is shown as a credit under the general heading of Disbursements.

In a manner similar to that used to charge operating divisions for their equipment, charges are made for office rental which is on a monthly basis to liquidate the bond charges on the Department building.

The Revolving Fund shown in the balance section of the report is a statutory amount provided by law to be used under the direction and authority of the Chief Engineer to make immediate cash payments to temporary labor or in other instances where an immediate expenditure of cash would be advantageous to the work of the Department. All expenditures from this fund are, like other expenditures of the Department, subject to review by the State Auditor and the State Controller. The statutory amount was reduced to \$1,000.00 in 1964. \$24,000.00 was transferred to the State Highway Supplementary Fund which is included in refunds and miscellaneous receipts of the report.

THE DEPARTMENT'S INCOME

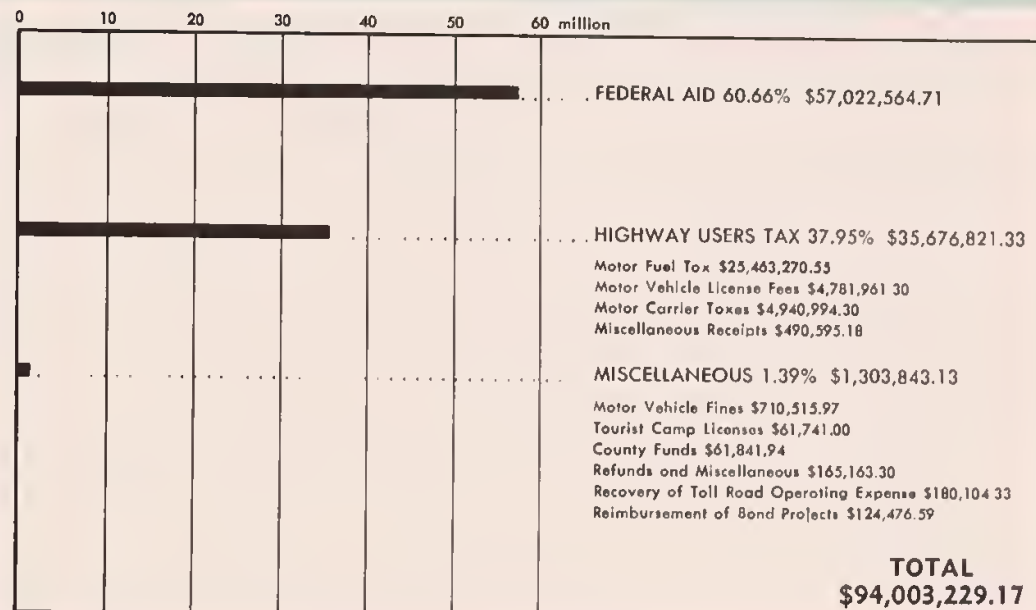

The income of the Department in the calendar year 1964, amounted to \$94,003,229.17. The statement was made under "The Department's Financial Condition" that large sums of money were paid by Colorado taxpayers for highway use. Over \$90 million in income is certainly a large sum of money. Part of the proper management of these funds is to continually develop improvements in programming based on anticipated future income as well as present revenue. In the operation of the Department of Highways, the historical trend of income for prior years becomes the basis for determining the size of highway programs of the future. The amounts of money that will be available for construction and maintenance activity are estimated in the same fashion.

On the facing page is an illustration which indicates the various sources from which the Department of Highways receives its income. It is pointed out that Federal Aid monies paid into the Federal Treasury in the form of gas tax and other taxes levied against the road users are sent back to the states to pay for the Federal Aid Program. Not all the monies paid in by users are returned because a substantial amount is consumed in the other general functions of the Federal government. During 1964, 60.66% of our income was accounted for by those monies which were returned to the State in the form of Federal Aid.

All highway user taxes in Colorado levied by the State must be used for road purposes. The Department of Highways received 37.95% of all its income from the portion of the Highway Users Tax Fund assigned to it by the State. The miscellaneous receipts of 1.39% came from motor vehicle fines, county funds and the other sources as shown on the facing page.

The three types of taxes or licenses which make up the Highway Users Tax Fund are motor fuel, motor vehicle, and motor carrier; plus miscellaneous revenues from operators and chauffeurs licenses, drivers license photo fees, dealers and salesmen licenses, titles, inspection stickers, special fuel permits, and Revenue Department services. Allocations are made from the combined revenues less charges for administration and the operation of the State Patrol. The amounts shown under Highway Users Tax on the facing page for the three sources and miscellaneous receipts have been estimated in order to show the approximate ratios of these sources for the amount used by the Department of Highways.

INCOME

THE DEPARTMENT'S DISBURSEMENTS

The Department is proud of the high percentage of available funds which are used for the construction of new and better highways.

In order to establish proper programs for construction, maintenance and non-construction expenditures, adequate data both prior and current, must be available to the administrator.

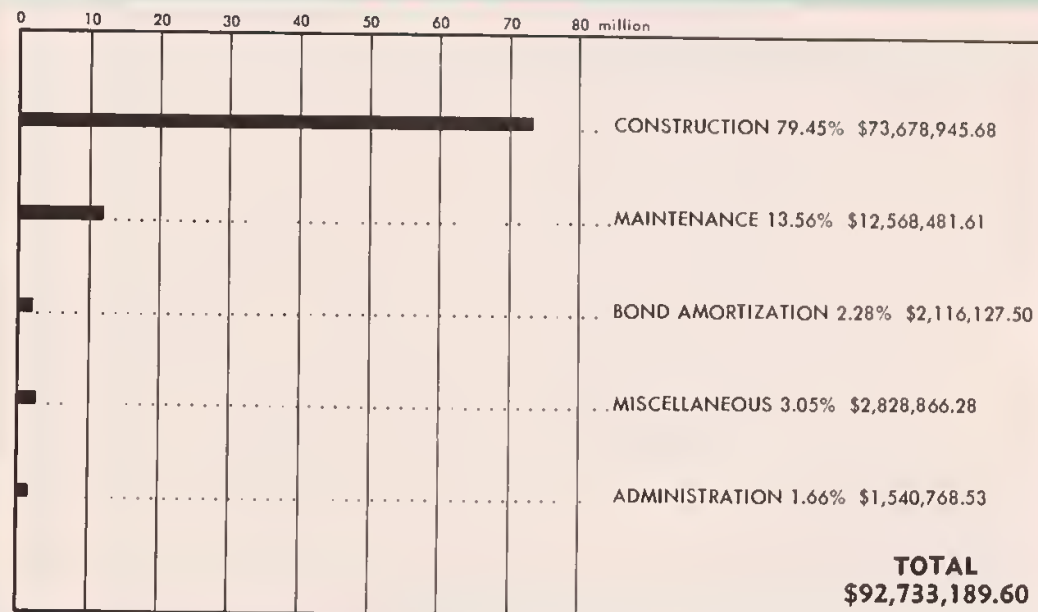

Not including the credit amount for Equipment Depreciation Reserve, the total disbursements for the calendar year 1964, amounted to \$92,733,189.60. Of this amount, 79.45% was expended for construction and 13.56% for maintenance of the highway system. 2.28% of the disbursements went to make interest and redemption payments on the \$35 million anticipation warrants issued during the period 1956 through 1959.

Although the statutes of the State permit a 5% expenditure for administration, the administrative cost of the Department was 1.66% for the calendar year 1964.

The miscellaneous disbursements were 3.05% and include charges for such as Planning and Research Division, Office Operations, State Employees Retirement Fund and other miscellaneous disbursements as shown in the financial statement on a previous page of this report.

The illustration on the facing page depicts the exact amounts of disbursement by major purpose.

DISBURSEMENTS

THE CONSTRUCTION PROGRAM-1964

The Department's disbursements show that 79.45% in the amount of \$73,678,945.68 of the total disbursements was expended for construction in 1964.

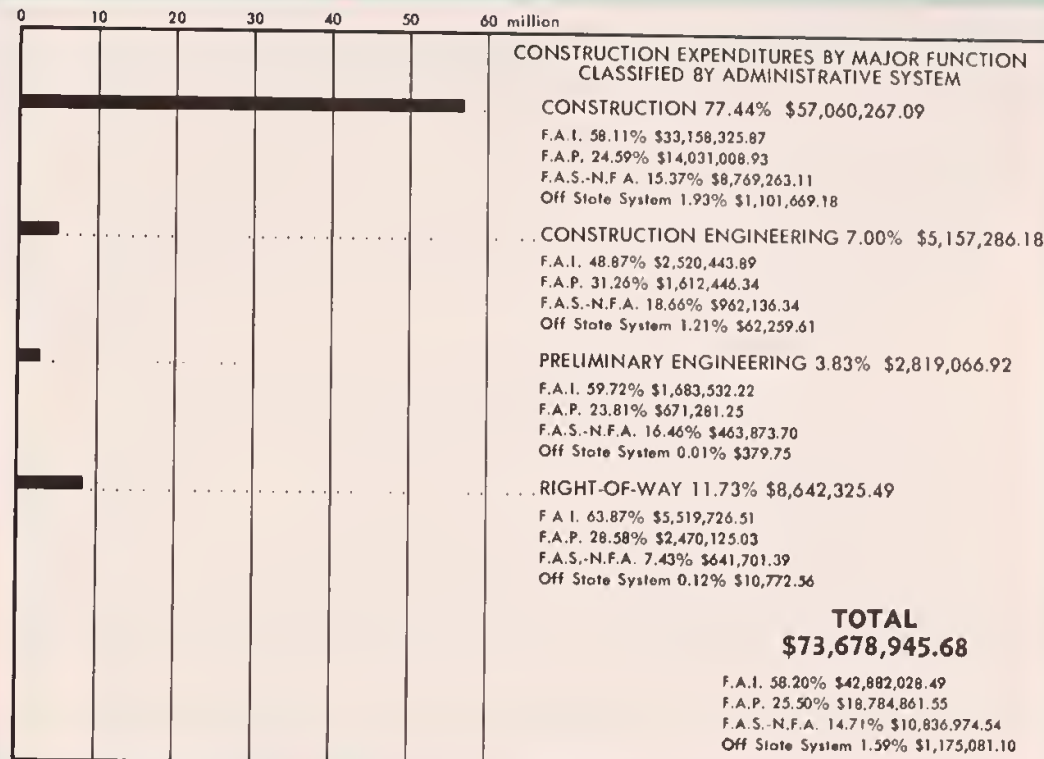

The cost records of the Department show that 7.00% or \$5,157,286.18 was expended for construction engineering, 3.83% or \$2,819,066.92 was expended for preliminary engineering and 11.73% in the amount of \$8,642,325.49 was expended for right-of-way purchases. The remainder 77.44% in the amount of \$57,060,267.09 was expended for other construction activities. The accompanying illustration shows the graphic presentation of these facts and shows the percentage and amounts of monies expended on the various administrative systems of highways by these major construction items.

The sum of \$1,175,081.10 shown for construction off the State Highway System is an amount expended by the Department on local roads which was totally reimbursable.

TABLE SHOWING MILES OF HIGHWAYS FINISHED IN 1964 BY SURFACE TYPE

System	Surface Types								
	Gravel	Asphaltic			Port. Cem. Conc.		Totals		
	2 Lane	2 Lane	4 Lane	6 or More Lane	4 Lane	6 Lane	2 Lane	4 Lane	6 or More Lane
Federal Aid Interstate	3	..	9	8	..	12	8
Federal Aid Primary	178	25	3	6	..	178	31	3
Federal Aid Secondary	4	167	6	171	6	..
Totals	4	345	34	3	15	8	349	49	11

CONSTRUCTION

THE MAINTENANCE PROGRAM-1964

The Department's disbursements show that 13.56% in the amount of \$12,568,481.61 of the total disbursements was expended for maintenance in 1964.

The Department of Highways, under the law, is responsible for the maintenance of each mile of its system regardless of whether it is located in a rural area or within the incorporated limits of a city or town. The law permits the Department to contract maintenance to the other public agencies in the State, if, by such contract, the public interest is served.

The Department performed 97.74% in the amount of \$12,284,556.75 of all maintenance work on the State Highway System during 1964. Contract maintenance by the counties on state highways amounted to 1.07% or \$134,929.42 with maintenance performed for the State by cities under contract amounting to 1.19% or \$148,995.44.

The cost records of the Department show that 38.19% of the total expenditure by State forces was consumed in maintaining road surfaces and drainage. Supervision and equipment operation accounted for 23.12% of the total cost. Of interest is the fact that 14.45% was used for snow and ice removal and to sand highways during storm periods. Traffic

services, including the placement of traffic signs and highway striping, accounted for 13.78% of the total maintenance expenditure. The accompanying illustration shows the graphic presentation of these facts and the amounts of monies expended for each operational item.

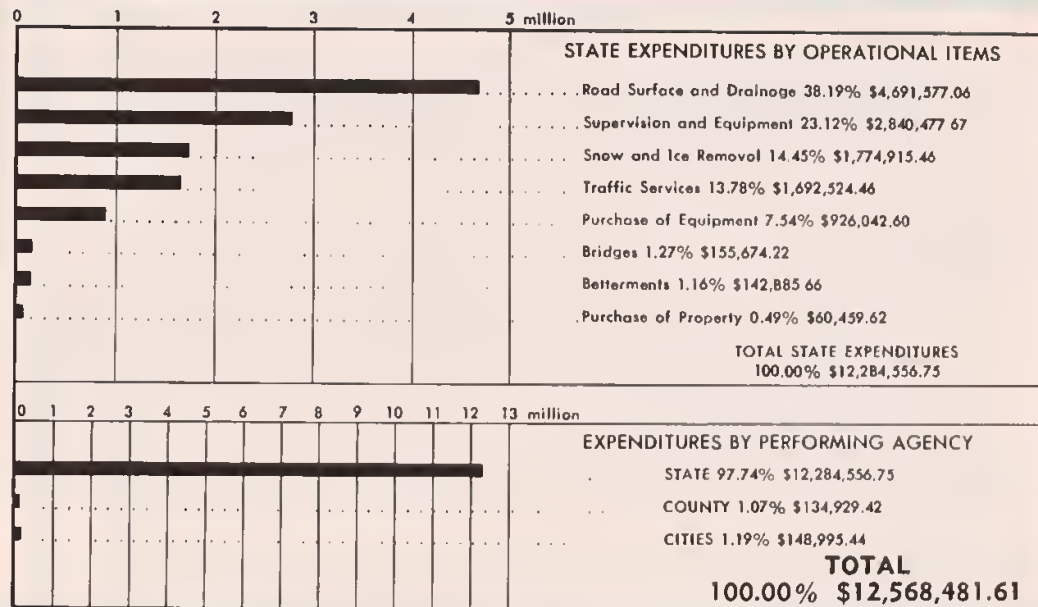

The total maintenance expenditure of \$12,568,481.61 divided by the 8,855 miles of State Highways results in an annual cost for maintenance of \$1,419.37 per mile. The maintenance expenditure by Administrative Systems divided by the individual system mileages show that maintenance costs per mile for the Federal Aid Interstate System is \$2,702.77, the Primary System is \$1,526.94 and Federal Aid Secondary and Non-Federal Aid State Highway Systems is \$1,047.24.

The breakdown of State expenditures for maintenance by administrative highway system shows that 20.68% was spent on the Federal Aid Interstate System, 43.87% on the Federal Aid Primary System with 35.45% spent on the Federal Aid Secondary and Non-Federal Aid State Highway Systems. The complete breakdown of State expenditures by operational items classified by highway system showing percentages and amounts of monies is contained in the following table:

STATE EXPENDITURES BY OPERATIONAL ITEMS CLASSIFIED BY HIGHWAY SYSTEM

Operational Items	Federal Aid Interstate		Federal Aid Primary		Federal Aid Secondary and Non-Federal Aid State Highways		Total State Highway	
	Percent	Amount	Percent	Amount	Percent	Amount	Percent	Amount
Road Surfaces and Drainage	22.60	\$ 1,060,459.58	38.65	\$ 1,813,439.33	38.75	\$ 1,817,678.15	100.00	\$ 4,691,577.06
Supervision and Equipment								
Operation . . .	17.55	498,379.16	48.07	1,365,548.06	34.38	976,550.45	100.00	2,840,477.67
Snow and Ice Removal	18.42	326,844.94	48.29	857,147.29	33.29	590,923.23	100.00	1,774,915.46

Total State Expenditures	20.68	\$ 2,540,837.42	43.87	\$ 5,388,436.32	35.45	\$ 4,355,283.01	100.00	\$12,284,556.75

MAINTENANCE

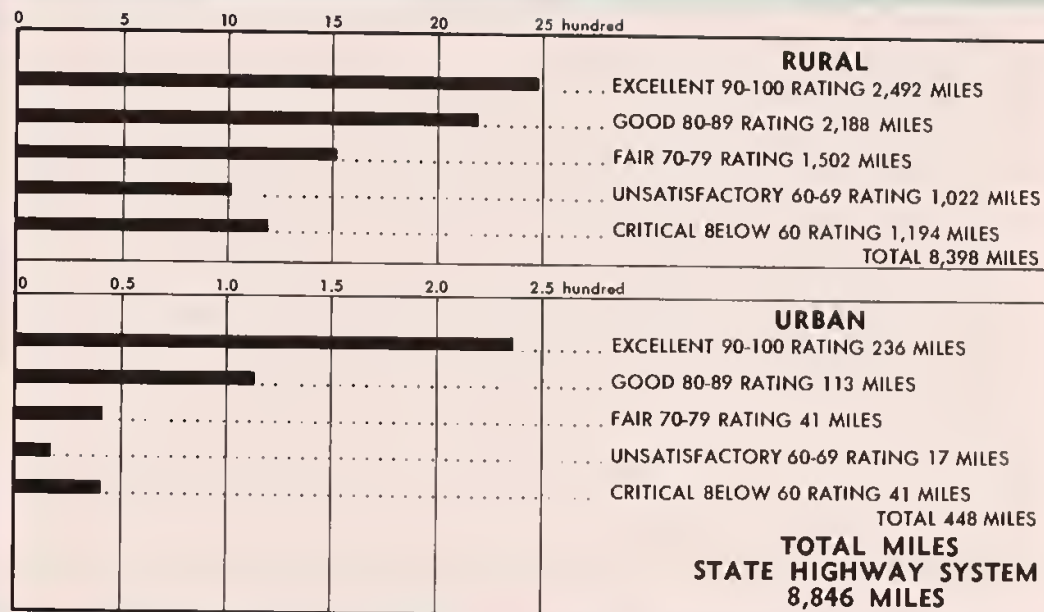

THE CONDITION OF THE STATE HIGHWAY SYSTEM

The need for the expenditure of construction and maintenance funds is evaluated by a condition measurement of the highway system. The condition of individual sections not involved with construction generally shows little change in one year. Therefore, the biennial sufficiency study is made to measure this physical condition of each segment of the system. The sufficiency study rates the entire network of the State Highway System for structural adequacy and the ability to handle existing traffic. Both urban and rural type sections consider the same general items; however, highway capacity, or the ability to handle existing traffic, is given more weight in the urban rated sections. The resulting ratings are a valuable tool used in determining the highway sections which should be given priority in the construction program.

The mileage shown on the sufficiency study data differs slightly from the State Highway System mileage reported, as of the end of 1964. This mileage variation is due to new construction and administrative system changes which occurred after the completion of the sufficiency rating study.

In 1964, there were 1,194 rural and 41 urban miles rated as critical. Excellent ratings were shown on 2,492 rural and 236 urban miles. The balance of the State Highway System was rated as either good, fair, or unsatisfactory. The illustration accompanying this text provides the detailed mileages in the various rating groups.

SUFFICIENCY

THE DENVER-BOULDER TURNPIKE

Since the January 21, 1952 opening day, the Denver-Boulder Turnpike has been a financial success. As of September 1, 1965, \$3,570,000 of the revenue bonds have been called for payment. Including the \$185,000 due September 1, 1965, \$1,470,000 of the amount called were regular annual commitments. The balance of \$2,100,000 represents prior redemptions of \$1,000,000 due in 1980, \$360,000 due in 1979, \$340,000 due in 1978, \$330,000 due in 1977, and \$70,000 due in 1976. This rate of retirement has been possible because the use of the turnpike has been in excess of the estimates made prior to construction.

On September 1, 1963, a new issue of Denver-Boulder Turnpike revenue refunding bonds were sold for the purpose of refunding outstanding bonds. The par value was \$3,085,000 and the amount of \$510,000 was called for redemption on September 1, 1965. A total of \$1,010,000 of the revenue refunding bonds have been called for payment as of September 1, 1965.

During the period January 21, 1952 through July 31, 1965, a total of 35,655,887 passenger cars and 837,821 trucks paid a net of \$8,192,235.70 to use the Denver-Boulder Turnpike. An amount of \$1,498,599.24 was available in cash and securities on August 1, 1965 to be used for payments of principal, interest and operating expenses of the turnpike.

COLORADO'S COUNTY ROAD SYSTEMS

COLORADO'S COUNTY ROAD SYSTEMS

Chapter 120, Colorado Revised Statutes, 1963, enumerates the reports which are required to be made by the counties each year for the information of the State Legislature and designated officials. If reports are not made, the law requires the State Treasurer to withhold a portion of the allocation to the delinquent county. The same law requires the Department of Highways to report its income and disbursement in a man-

ner similar to that required of the counties, but in greater detail. Under the law, it also becomes the obligation of the State Department of Highways to compile all the county reports and to distribute the compilations to a designated group of State, County and City officials.

Other major reports required to be submitted under the law are shown below.

Type of Report	State Department Designated To Receive	Annual Due Date	Period Covered
Expenditures and Receipts	State Auditor	May 1	Previous calendar year
County Road Budgets	State Tax Commission	September 1	Next annual period
Road System Changes	Department of Highways	May 1	Previous calendar year

The year 1964 was the eleventh year in which reports of county road system receipts and expenditures were received in the State Auditor's Office. In a minor number of cases, it was necessary to recontact a county to obtain the reports within the required dateline or to secure an interpretation of the submitted figures. Immediately following is a tabulation prepared from the individual reports of expenditures and revenues submitted to the State Auditor by the several counties of the State. No attempt has been made to interpret the reports, but footnotes at the end of the table indicate the peculiarities that exist in any figures which need explanation. In the appendix of this report is a table which shows the

mileages reported by counties as constituting the county road systems and other roads open to public travel.

The mileage figures have been consolidated with registration data from the Motor Vehicle Department and percentages for distribution used by the State Treasurer in distributing the Highway Users Tax Fund.

Maps and records substantiating mileages shown in the table referred to are on file in the Planning and Research Division of the Department of Highways and, as a public record, are open to examination by any citizen. Information regarding registrations is available at the Department of Revenue.

 4. Footnotes show only for receipts that were identified.
 5. Footnotes show only for disbursements that were identified.
 6. Receipts from municipalities for operations performed by county.
 7. \$80,023.54 tax credit granted to corporations; \$1,081.11 miscellaneous.
 8. Spraying ditches.
 9. \$3,289.87 insurance; \$-2,628.41 cr. warrants outstanding.
 10. Warrants outstanding.
 11. Insurance.
 12. \$3,334.50 insurance; \$2,529.58 work performed for others.
 13. Transfers to other funds.
 14. \$31,771.61 warrants outstanding; \$8,900.44 equipment rent; \$3,600.00 work performed for others; \$1,715.68 building.
 15. Labor hired from outside.
 16. \$8,591.76 other road expenditures; \$1,221.58 transfers to other funds.
 17. \$3,115.81 equipment rent; \$12.22 refunds.
 18. \$2,725.52 supplies and tools; \$10.23 transfers to other funds.
 19. \$1,436.25 insurance; \$325.39 miscellaneous.
 20. \$21,231.79 airport construction; \$9,164.02 transfers to other funds.
 21. \$73,115.58 traffic control; \$17,705.42 insurance.
 22. \$31,474.95 warrants outstanding; \$3,182.46 miscellaneous; \$3,059.65 transfers to other funds.
 23. Airport expenditures.
 24. \$27,114.94 work performed for others; \$1,544.66 miscellaneous.
 25. \$3,003.75 transfers to other funds; \$609.33 other road expenditures; \$93.19 refund.
 26. \$9,929.76 insurance; \$7,771.25 FICA Tax; \$3,736.29 miscellaneous.
 27. \$20,924.00 airport construction; \$14,037.71 insurance; \$48.23 refunds.
 28. \$9,165.20 equipment hire; \$7,056.54 miscellaneous.
 29. \$1,038.26 transfers to other funds; \$394.85 work performed for others.
 30. \$9,836.44 county building expense; \$9,308.42 payment to State Department of Highways.
 31. Refunds.
 32. Work performed for others.
 33. \$-23,202.42 cr. warrants outstanding; \$1,185.39 work performed for others.
 34. \$-14,175.92 cr. warrants outstanding; \$2,663.89 mileage and equipment hire; \$57.88 tax refund.
 35. Other miscellaneous expenditures.
 36. \$25,000.00 payment to State Department of Highways; \$1,133.57 warrants outstanding.

COLORADO'S MUNICIPAL ROAD AND STREET SYSTEMS

COLORADO'S MUNICIPAL ROAD AND STREET SYSTEMS

Chapter 120, Colorado Revised Statutes, 1963, specifies requirements for incorporated places. These requirements are similar to those as stated previously for counties. In the same manner as provided for county reports, the State Department of Highways is required to compile the data obtained from municipalities and to distribute the consolidated information to the Legislature and other designated State and City officials.

On the following pages is tabulated the information obtained from the reports of municipalities as submitted to the State Auditor. The tabulation is augmented with footnotes explaining unique features of the reports of a number of the incorporated places. No attempt is made to interpret the information provided the Auditor by the reporting units.

In the appendix, there will be found the tabulation of mileages and registration data which result in the composite percentage used to distribute State user tax revenues to the various incorporated places.

The maps of the individual incorporated places which have been used in preparing this document are available for examination in the Planning and Research Division of the Department of Highways. In like manner, fiscal reports are retained in the files of the State Auditor and information on registration is available in the Motor Vehicle Division of the Department of Revenue.

DATA CONCERNING FEDERAL AID

APPORTIONMENTS TO STATES OF THE VARIOUS FUNDS CURRENTLY AVAILABLE FOR HIGHWAY CONSTRUCTION ARE BASED ON THE FOLLOWING FACTORS:

Road System	Factors
Federal Aid-Interstate.....	100%—Ratio which the estimated completion cost of each State's system bears to the estimated completion cost of the system in all States.
Federal Aid-Primary.....	100%—1/3 Area, 1/3 Population, 1/3 Post Road Mileage.
Federal Aid-Secondary.....	100%—1/3 Area, 1/3 Rural Population, 1/3 Post Road Mileage.
Federal Aid-Urban.....	100%—Population of Cities over 5,000.

**MILEAGE AND REGISTRATION PERCENTAGE DATA REQUIRED FOR APPORTIONING HIGHWAY USERS
TAX FUND TO COUNTIES IN ACCORDANCE WITH CHAPTER 120, SECTION 120-12-7,
COLORADO REVISED STATUTES—1963
FOR PERIOD JULY, 1965—JUNE, 1966**
